Challenges: Employment Assistance Program: Many of our clients are challenged with lack of employment opportunities available to them that provide sufficient income to support their families. Many times our clients that struggle to find adequate employment lack the education level necessary to qualify for jobs that would sufficiently support them and their families. Tapestry continues to work with clients encouraging online job search/applications and advocate assistance in the areas of resume writing and interviews. We continue to promote our computer lab area and are brainstorming on how to increase the interest in this service. Housing Assistance Program: Many of our clients are challenged with lack of employment opportunities that provide sufficient earnings to maintain an appropriate residence for themselves and their families. Tapestry continues to work with clients encouraging housing searches and referrals to transitional and shelter housing.
